PREPARING YOUR QUILT FOR THE LONGARM

- QUILT The quilt top, backing, and batting should be provided separately. Unpinning or unbasting will be provided as a specialty service, if required. Patches does not accept fused or spray basted quilts.
 - The quilt top and backing should be well pressed. If seamed, the backing should have the selvage trimmed and pressed open. Quilt backing edges should be even and the backing should be squared. Squaring of backing will be provided as a specialty service, if required. Selvages should be removed from the seam only. It is fine to keep the selvages on the outer edges of the backing.
 - The seams on the quilt top may be pressed as you desire except where there are multiple seam intersections, creating a "bump". These should be pressed open to distribute the thickness.

 - Threads should be trimmed on the top and back of the quilt top and backing. Dark threads on the wrong side of the quilt top and back may show through if the quilt has light colored fabrics.
 - Backing and batting must be approximately 5" to 6" wider all around the quilt top. This is necessary in order to load the quilt into the machine frame.
 - Batting can be spliced for you as a specialty service.
 - If you provide your own thread for quilting, it must be suitable for longarm machine quilting. Extra thread is always required to avoid delays that affect scheduling.
 - The quilt top should not have any three-dimensional embellishments such as buttons, charms, beads, etc. Save all embellishments until after the quilt top has been quilted.
 - Please alert the longarm quilter at the time of presentation if you intend for your quilt to hang in a show. The longarm quilter knows what the judges are looking for and will prepare the quilt accordingly. Expect to pay more for "show quality" quilting.
 - The usual turn-around time is 4-6 weeks.
 - Rush jobs are accepted but may incur extra charges.

BORDERS, BACKING, & BINDINGS *with Jackie B.*

Wednesday, February 28, 2024

10 am to 12 pm \$25.00

Learn the techniques to make the center of your quilt **POP** by framing it in just the right **BORDER**, **BACKING**, and **BINDING**.

After you finish piecing the center of your quilt, it is imperative that the borders are applied in the correct manner. If not, your quilt will never lay flat and the idea that “you can quilt it out” is just not true. Extra fluff is a quilter’s nightmare.

In this class we will also cover the various ways to treat the edges of your quilts. Flanges, two color binding, prairie points and scallops are just a few of the techniques we will cover.

This is a lecture only class. No class supply list is required for this class. However, if you’d like to bring in some quilts for discussion, please do so.

Call **301-831-0366** to sign up for this class/lecture.

Jelly Roll Rug with Jackie B.

Offered on two (2) dates

Friday, January 26, 2024

Thursday February 15, 2024

10 am - 2 pm \$45.00

Create a 30" X 44" oval (or larger) or a round area rug using the jelly roll (or rolls) of your choice. Jelly rolls are cute, round fabric "treats" consisting of 40 to 42 strips of fabric. Each strip measures 2.5" X 42". If you choose to make your own 2 1/2" strips, you will need approximately 3 yards of fabric for every 50 yards of Bosal jelly roll batting.

You can customize this rug to your liking depending on the colors, and prints of fabric you choose. Brighten up your sewing room, decorate a child's room, or use coordinating colors to create a rug to complement any room in your home. Or try using red, white, and pink for a Valentine's Day rug. The possibilities are endless!.
