This machine normally sells for \$499.00 plus the extension table. This is a great gift for under the tree for the beginning sewer.

We will also have special pricing on all the Husqvarna Viking machines.

Take your measurements and make your plans now to outfit your sewing room. In addition to that new sewing machine, check out our Inspira Cabinets. These cabinets have been designed with the quilter in mind. Quality, storage and organization are top considerations in the manufacturing of these beautiful white cabinets by ClosetMaid. Order your cabinets now and they can be delivered right to your door.

We also wanted to keep you up to date on a new item we have just received in the shop. The popular [YAZZII](#) bags have arrived (at last)! For those who are not familiar with them, these organizer bags are handcrafted by hand on domestic sewing machines. The unique quilting is done freehand and is a testament to the skill of the Yazzii bag maker. Each bag is individual and the fabric selection, design and artisan skill allows Yazzii to produce and maintain a high quality product. The bags come in various sizes-we currently have 6. Check our calendar for the upcoming "Preview Day/Party

for gifts etc. More information to come in our next newsletter.

Patches will be closed Thanksgiving Day, Thursday, Nov. 27th. Have a great day!
